

The Acessa Procedure Online Physician Finder

How patients find physicians who offer the Acessa procedure for fibroids

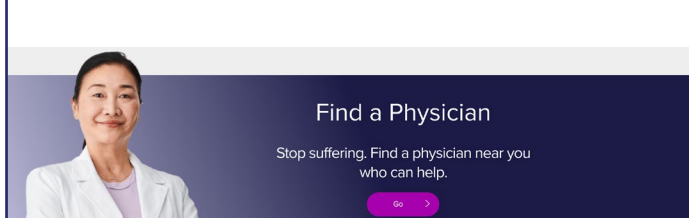

Step 1:

Patient may see an Acessa advertisement on a search engine or social media

Step 2:

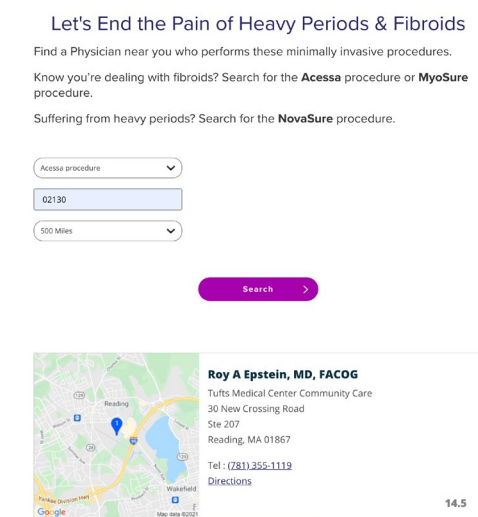

Patient visits the Acessa procedure website learn more and find an Acessa trained physician

Step 3:

Patients locate a physician near them and starts making calls

*The number online is slightly different than the office number, because it is a tracking number! The number listed for the physician on the website forwards to the physician's office line

Step 4:

Front office staff answers the call and schedules an appointment with an Acessa trained physician for the patient!

1. Expect calls from women asking about the Acessa procedure for uterine fibroids
2. Schedule a consult for the patient with an Acessa trained physician!
3. If a patient has further questions, reference the Acessa Patient Frequently Asked Questions or visit gynsurgicalsolutions.com
