

# Heavy periods & pain? It may be fibroids

## QUESTIONS TO ASK YOUR DOCTOR

These are my symptoms... could these be fibroids?

What are all possible treatment options available?  
What about laparoscopic radiofrequency ablation, or the Acesa® procedure?

What is the Acesa Procedure?

PP-02218 Rev 002 ©2021 Hologic, Inc. All Rights Reserved. Hologic, Acesa ProVu, The Science of Sure and associated logos are trademarks and/or registered trademarks of Hologic, Inc. and/or its subsidiaries in the United States and/or other countries

**IMPORTANT SAFETY INFORMATION** The Acesa ProVu system is indicated for use in percutaneous, laparoscopic coagulation and ablation of soft tissue, including treatment of symptomatic uterine fibroids under laparoscopic ultrasound guidance. Please read all instructions for use of the Acesa ProVu system prior to its use. Rare but serious risks include, but are not limited to, infection, injury to adjacent structures, blood loss and complications related to laparoscopy and/or general anesthesia. The Acesa ProVu system is not recommended for women who are planning future pregnancy.
